Arbor Extension

Product has been released to complement our extensive holesaw range for help with drilling deep holes or drilling in hard to reach areas.

Holesaw Arbor extension bar, made from hardened steel for use with hex shank arbors. Also supplied with allen key.

Helpful Hints

- Insert holesaw arbor shank into holesaw extension until holesaw arbor shank bottoms in extension
- Insert allen key provided into grub screws (3) in holesaw arbor extension and turn clockwise until arbor shank is firmly secured in position
- Always secure material to be cut
- Never apply pressure in any direction except directly in line with holesaw
- Withdraw holesaw frequently to clear chips
- Cutting fluid must be used when cutting metal
